

QUICK START GUIDE – GOOGLE HOME

STEP 1

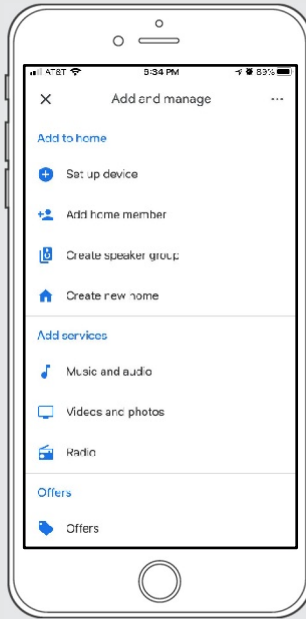

Open the “Google Home” mobile App.

STEP 2

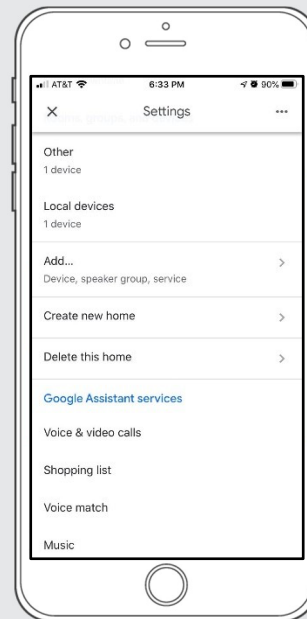

From the Home Screen, select the + on the upper left corner of the page.

STEP 3

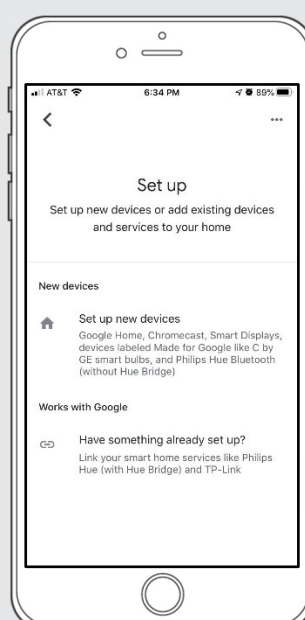

Click “Add...” to link The Shade Store V2 with your Google Home.

STEP 4

Click “Add...” to link The Shade Store V2 with your Google Home.

STEP 5

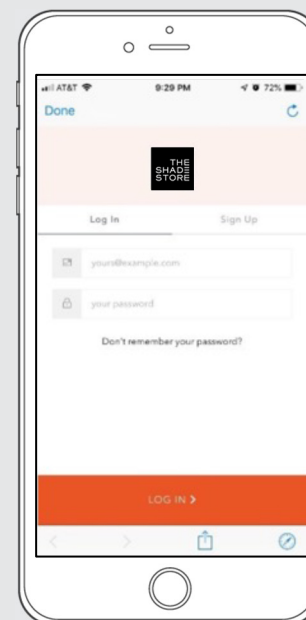

Select the link icon button under Works with Google to link The Shade Store V2 action.

STEP 6

Type “The Shade Store V2” on your Google Home Action.

STEP 7

Enter your login information and click “Log In”.

How to Operate the Shades

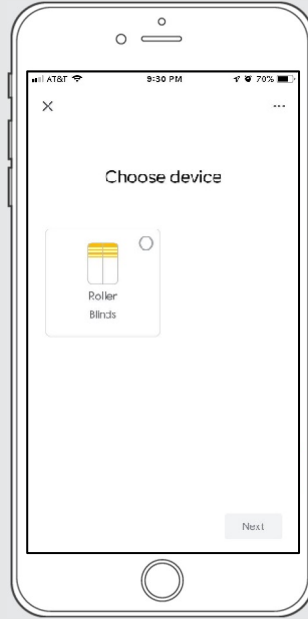

STEP 1

The screenshot shows the 'Add new' section of the Google Home app. A card for 'The Shade Store V2' is visible. At the bottom, a black banner states 'The Shade Store V2 is linked'.

Now, your Shade Store V2 is linked with Google Home.

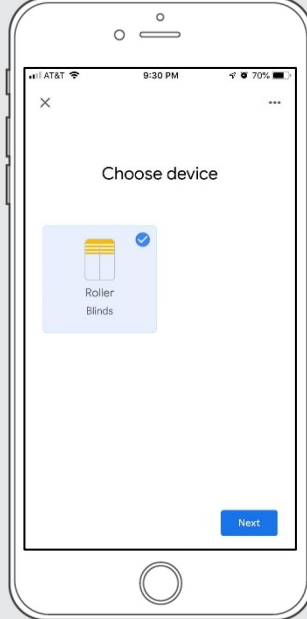

STEP 2

The screenshot shows the 'Choose device' screen. A card for 'Roller Blinds' is displayed with a plus icon. A 'Next' button is at the bottom right.

The Google Home App will automatically discover all devices programmed in The Shade Store V2.

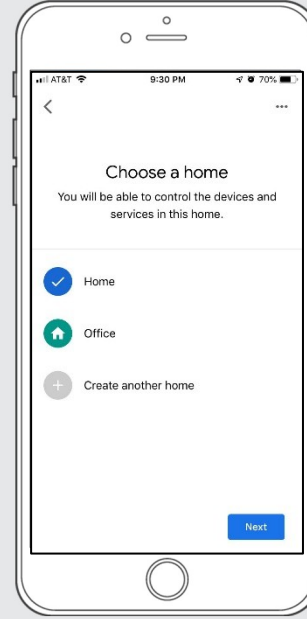

STEP 3

The screenshot shows the 'Choose device' screen. The 'Roller Blinds' card is highlighted in blue with a checkmark. A 'Next' button is at the bottom right.

Select the device you want to include on your Google Home.

STEP 3

The screenshot shows the 'Choose a home' screen. It lists 'Home' (selected with a blue checkmark), 'Office', and 'Create another home'. A 'Next' button is at the bottom right.

Select the appropriate Home for your device.

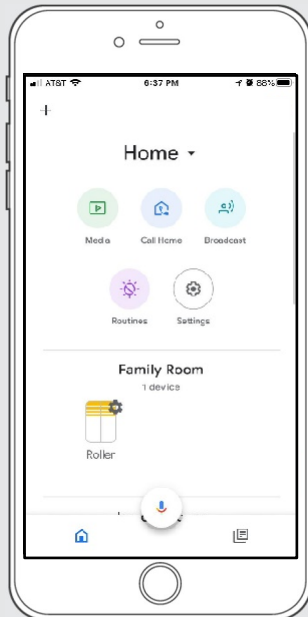

STEP 5

The screenshot shows the 'Where is this device?' screen. It asks to choose a location for the blinds. Under 'My rooms', 'Family Room' is selected with a blue checkmark. A 'Next' button is at the bottom right.

Choose the room where your device is located.

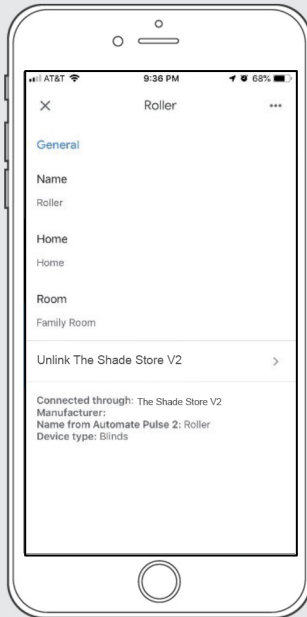

STEP 6

The screenshot shows the 'Home' screen. Under the 'Family Room' section, the 'Roller' device is listed. A plus icon is next to the device name.

Click on the device to customize the information in the Google Home App.

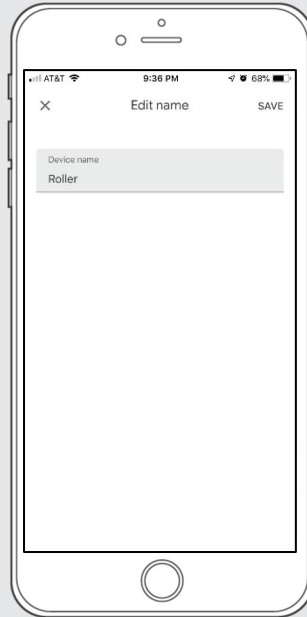

STEP 7

The screenshot shows the 'Roller' device settings page. It includes sections for 'General', 'Name', 'Home', 'Room', and 'Unlink The Shade Store V2'. It also shows connection details: 'Connected through: The Shade Store V2', 'Manufacturer: Name from Automate Pulse 2: Roller', and 'Device type: Blinds'.

If desired, change the device information in the Google Home App accordingly.

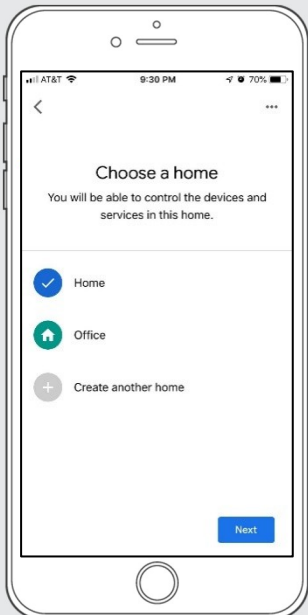

STEP 8

The screenshot shows the 'Edit name' screen. The 'Device name' field contains 'Roller'. There is a 'SAVE' button at the top right.

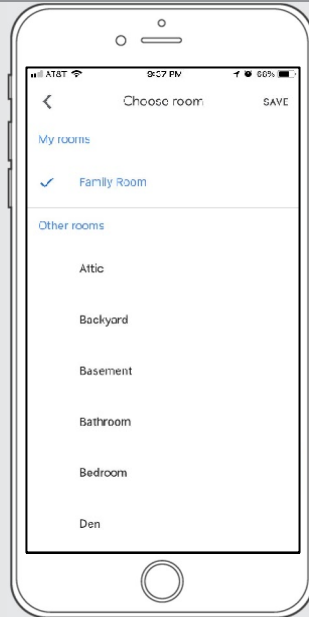

Click in the Name if you want to change the Device Name on the Google Home.

STEP 9

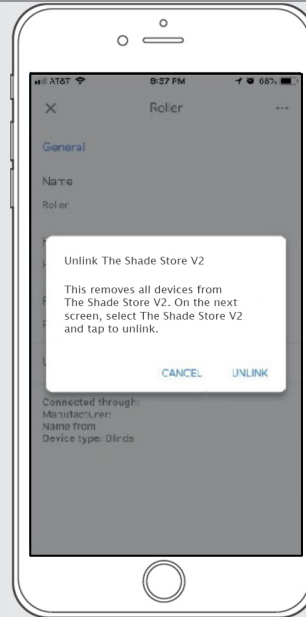

If desired, you can change the Home location for your device.

STEP 10

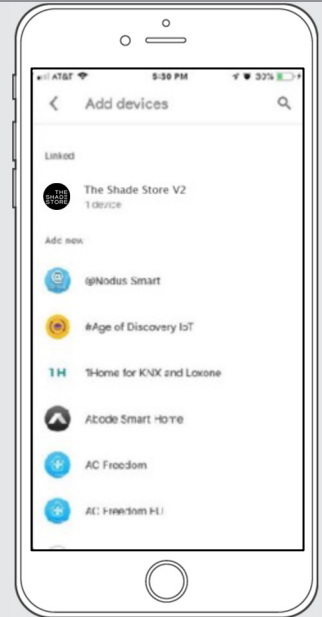

You can also select a new room for your device.

STEP 11

If you want to unlink your device, click "Unlink The Shade Store V2" on your device page.

STEP 12

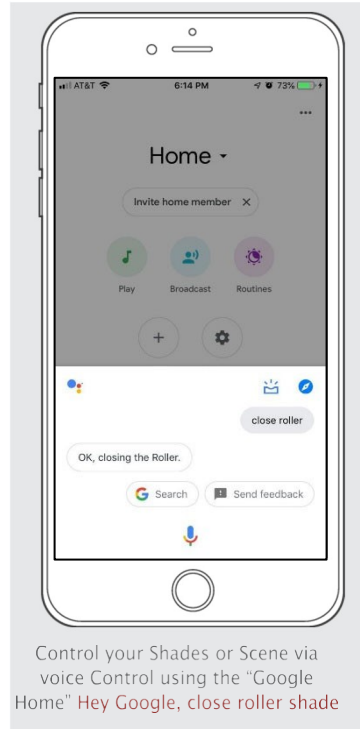

To check if your device is linked with The Shade Store V2 App, click "Add Devices".

How to Control Your Shades Using “Google Home”

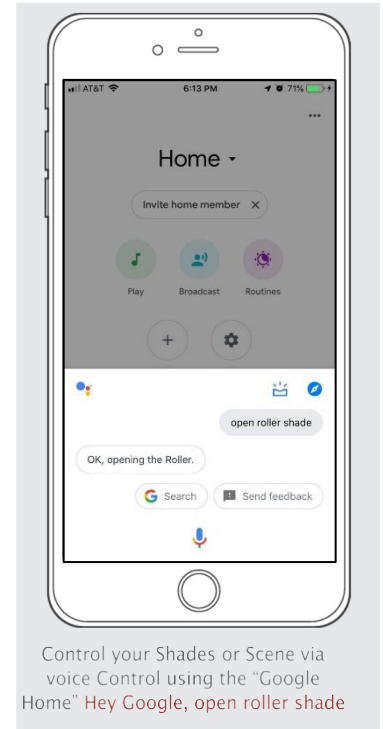

The Google Home App allows you use the voice control through your iPhone, iPad, iWatch or any Android device.

You just need to say, "Hey Google" followed by ...

- Close <blinds name>
- Close <room name> blinds
- Close <blinds nick name>
- Set <blinds names> to <percentage>
- Close <blinds name> <adverb>
- Close <blinds name> <direction>
- Close blinds halfway
- Open blinds halfway
- Open <blinds name>
- Open <Room Name> Blinds
- Open <blinds nick name>
- Open <blinds names> to <percentage>
- Open <blinds name> <adverb>
- Open <blinds name> <direction>
- Set <blinds name> <percentage>
- Are <blinds name> open?
- Rotate <blinds name> to <degrees>
- Rotate <blinds name> to <percentage>
- Rotate <blinds name> <degrees> clockwise
- Rotate <blinds name> <degrees> counterclockwise

Control your Shades or Scene via voice Control using the “Google Home” Hey Google, close roller shade
